

Press Release

03 June 2024

BELECTRIC at Intersolar Europe 2024

- Solar energy specialist BELECTRIC presents “360-degree PV solution” at the international trade fair for the solar industry
- BELECTRIC shareholder Elevion Group as sub-exhibitor

Kolitzheim (Germany) – BELECTRIC, member of Elevion Group, one of the leading service providers in the development, construction, and operation of solar power plants in Europe, will present its range of services at the international trade fair for the solar industry in Munich from June 19th to 21st, 2024, at stand A4.270.

Under the motto “360-degree PV solution”, BELECTRIC presents its comprehensive services along the entire value chain of a PV plant. From Project Development and System Design Optimisation to Engineering, Procurement, and Construction (EPC) as well as Operations and Maintenance (O&M), BELECTRIC offers its customers all services from a single source.

The “360-degree PV solution” stands for a holistic approach that aims to maximise yields for the company’s clients. All products are individually designed for the customers’ business cases, regardless of whether they are ground-mounted solar farms, floating PV, agrivoltaics, or battery storage systems.

Visitors to Intersolar Europe will have the opportunity to find out not only about BELECTRIC's innovative solutions, but also about the entire Elevion Group, which is also taking part in the trade fair this year.

Elevion Group offers expertise and experience in the field of green energy, making it a true specialist in comprehensive decarbonisation and energy efficiency solutions in Europe.

Come and see the benefits of BELECTRIC's “360-degree PV solution” for yourself and discover the other solutions on offer as well as the comprehensive activities of the entire Elevion Group. The Elevion and BELECTRIC teams are at your disposal for questions, discussions, and consultations.

About BELECTRIC:

BELECTRIC is one of Europe's leading EPC service providers in the development, construction, and operation of solar power plants. The solar energy specialist looks back on more than 20 years of experience in power plant construction and has built almost 5 gigawatts of capacity worldwide. BELECTRIC is a member of Elevion Group. Elevion Group is a leading European provider of end-to-end decarbonization and higher energy efficiency solutions. Thanks to its unique structure and its pioneering spirit, its capabilities can be easily scaled across the project scope, for various project sizes and a range of required expertise. Elevion Group operates on 12+ European markets (including The Netherlands, Germany, Austria, Italy, Poland, Romania and Hungary) through 60+ highly specialized independent companies, but with the financial strength of an international group.
