

## Press release

06 June 2022

# BELECTRIC becomes a partner of Wölfe Würzburg

- BELECTRIC will be supporting the Wölfe Würzburg handball club from the 2023/2024 season onwards
- From the region, for the region: Cooperation creates opportunities for professionals and trainees

**Kolitzheim (Germany) – BELECTRIC, a member of Elevion Group, will be supporting the Wölfe Würzburg handball club starting with the coming season. The partnership between the solar energy specialist and the third division club is also intended to benefit professionals and trainees from the German Mainfranken region.**

The German solar energy company BELECTRIC from Lower Franconia becomes a partner of Wölfe Würzburg. Wölfe Würzburg are a handball club from Rimpar near Würzburg, Germany, that will be competing in the third national handball division in the 2023/2024 season. By partnering with Wölfe, the Kolitzheim-based company BELECTRIC is giving something back to its home region and creating opportunities to get to know the medium-sized company with solar projects throughout Europe better – true to the motto "from the region, for the region". Every year, BELECTRIC trains young people in eight different commercial and technical professions and employs more than 250 people at its headquarters in Kolitzheim near Schweinfurt.

"With BELECTRIC, Wölfe have a strong partner at their side. The corporate philosophies of BELECTRIC and Wölfe fit together perfectly and complement each other well. With our dual concept of sport and career, we see great synergies and can make an important contribution in terms of recruiting and perception through our image. BELECTRIC and Wölfe stand for continuity and regionality, which connects as well as opens up opportunities for both partners. We are proud to win a partner like BELECTRIC for the Wölfe project", comments Roland Sauer, Managing Director of Wölfe Würzburg.

Handball is a sport that inspires regardless of gender, origin or age. With employees from more than 20 nations, BELECTRIC also stands for an open-minded, cosmopolitan attitude. Starting with the coming season, the logo of the solar energy company will be on display at all Wölfe home games in the tectake ARENA in Würzburg. In addition, various joint activities are planned, for example a Meet & Greet where everyone interested can get to know not only BELECTRIC but also the professional handball players from Wölfe Würzburg up close.

Thorsten Blanke, Managing Director at BELECTRIC, welcomes the cooperation: "We are looking forward to working with Wölfe Würzburg. Handball is a team sport. At BELECTRIC, we also work hand in hand. Like the Wölfe, we are successful because we are a team. This is how we have been able to construct more than 4.4 gigawatts of solar capacity in our company's history, including 11 solar farms here in Bavaria in the last three years alone."

BELECTRIC is one of Europe's leading EPC service providers in the development, construction and operation of solar power plants. The solar energy specialist looks back on more than 20 years of experience in power plant construction and has built over 4 gigawatts of capacity worldwide. BELECTRIC is a member of Elevion Group. Elevion Group BV is one of Europe's leading energy service providers in the field of modern energy solutions that focus on sustainability and climate neutrality. Elevion Group belongs among Germany's market leaders in this segment. The group currently is comprised of over 60 consolidated companies and employs more than 4,400 people in twelve countries – in addition to Germany, these include the Netherlands, Austria, Italy, Hungary, Poland, Romania, and China.
