# BELECTRIC Hosts Cycling Initiative for a Good Cause at Solar Farm

- BELECTRIC supports Team Rynkeby Berlin, a charity cycling team that raises money for critically ill children
- Team Rynkeby Berlin stops at BELECTRIC's solar farm in Reddehausen on its bike trip to Paris

**Kolitzheim (Germany) – BELECTRIC, member of Elevion Group, supports a cycling initiative that raises money for the German Children's Cancer Foundation. On its bike trip from Berlin to Paris, the cycling team Rynkeby Berlin will be welcomed at BELECTRIC's solar farm in Reddehausen.**

Team Rynkeby Berlin covers a distance of 1,249 kilometres and a total cumulated elevation of 9,070 metres on its cycle tour for a good cause. In eight days, the charity cycling team travels from Berlin to the Eiffel Tower in Paris and raises money for the German Children's Cancer Foundation. The solar company BELECTRIC makes a contribution and supports this initiative.

On the cycle tour's leg from Heilbad Heiligenstadt to Marburg, Team Rynkeby Berlin therefore stopped at BELECTRIC's solar farm in Reddehausen on July 7<sup>th</sup>. Almost 40 cyclists were warmly welcomed at the photovoltaic plant, which was commissioned in 2024, with refreshments for the last few kilometres of the day.

"As a medium-sized company with almost 600 employees, we not only have a responsibility towards our employees, customers, and business partners, but also towards society. We are all the more pleased to support an initiative that benefits critically ill children - the most vulnerable members of our community. Our special thanks go to Team Rynkeby Berlin for their great commitment and their visit to our solar farm", explains Dr Thorsten Blanke, CEO of BELECTRIC, member of Elevion Group.

BELECTRIC employee Esther Jantosch (Head of Sales Central Europe), who is completing the eight legs of the cycle tour to Paris as part of Team Rynkeby Berlin, adds: "I am proud to be able to contribute, with every kilometre I ride, to a better, hopefully one day cancer-free future. Together with my fellow cyclists, I'm doing everything I can to arrive in Paris and raise more awareness for critically ill children."

### About BELECTRIC

BELECTRIC is one of Europe's leading EPC service providers in the development, construction, and operation of solar power plants. The solar energy specialist looks back on more than 20 years of experience in power plant construction and has built over 5 gigawatts of capacity worldwide. BELECTRIC is a member of Elevion Group.

### About Elevion Group

Elevion Group is a leading European provider of end-to-end decarbonisation and higher energy efficiency solutions. Thanks to its unique structure and its pioneering spirit, its capabilities can be easily scaled across the project scope, for various project sizes and a range of required expertise. Elevion Group operates on 12+ European markets (including The Netherlands, Germany, Austria, Italy, Poland, Romania and Hungary) through 60+ highly specialized independent companies, but with the financial strength of an international group.
