19 January 2026

# 25 Years as the Official Partner of the Sun: BELECTRIC Celebrates Anniversary & Five Years with Elevion Group

- BELECTRIC commemorates 25 years in business
- Five years as part of the Elevion Group
- From a pioneer in Franconian Kolitzheim (Germany) to one of Europe's leading solar companies

**Kolitzheim (Germany) – BELECTRIC, member of Elevion Group, celebrates its 25th anniversary and five years within the Elevion Group. Since BELECTRIC's beginnings in 2001, the Franconian company has grown into one of Europe's leading service providers in the development, construction, and operation of solar power plants and battery storage systems.**

In 2026, solar energy specialist BELECTRIC looks back on a quarter-century of history. The company's foundations were laid 25 years ago by Beck Energy GmbH, S&F Umwelttechnik GmbH, and Blitzstrom GmbH, which began operating under the BELECTRIC brand in 2011. In 2012, BELECTRIC became the first company worldwide to achieve the historic milestone of one gigawatt of installed solar capacity.

Since then, one gigawatt has grown to around six. This means that the more than 530 photovoltaic plants built by BELECTRIC worldwide cover the electricity needs of around two million households. Today, BELECTRIC is one of the leading service providers in the development, construction, and operation of solar power plants and battery storage systems in Europe. But it is not just the installed capacity that has grown – BELECTRIC itself has expanded. From a pioneer in Kolitzheim, Franconia (Germany), the company has evolved into an internationally active enterprise with more than 600 employees in nine countries.

"We owe this anniversary above all to our employees, whose passion, expertise, and commitment have written BELECTRIC's success story. Together, we've shaped the company into what it is today – a trusted provider of affordable, reliable renewable energy, delivered in harmony with nature and today largely without relying on government subsidies", says Dr Thorsten Blanke, CEO of BELECTRIC, member of Elevion Group.

Since December 2021, BELECTRIC has been part of the Elevion Group, one of Europe's leading providers of end-to-end solutions for decarbonisation and energy efficiency. This partnership has strengthened BELECTRIC's position and accelerated its contribution to the energy transition.

Jaroslav Macek, CEO of Elevion Group, adds: "We are proud of the history of BELECTRIC, the photovoltaic and battery storage expert within our group. Congratulations on 25 successful years! Together with BELECTRIC, we are building the energy infrastructure of the future – and heading into the next 25 years."

### About BELECTRIC

BELECTRIC is one of Europe's leading service providers for the development, construction, and operation of solar

power plants and battery storage systems. With 25 years of proven expertise in power plant construction, the solar energy specialist has delivered approximately six gigawatts of capacity across the globe. BELECTRIC is a member of the Elevion Group.

#### **About Elevion Group**

Elevion Group is a leading European provider of end-to-end decarbonisation and higher energy efficiency solutions. Thanks to its unique structure and its pioneering spirit, its capabilities can be easily scaled across the project scope, for various project sizes and a range of required expertise. Elevion Group operates on 13+ European markets (including The Netherlands, Germany, Austria, Italy, Poland, Romania and Hungary) through 80+ highly specialised independent companies, but with the financial strength of an international group.
